KEY IDEAS

- Inclusion
- Multilingualism
- Sustainability and environmental education
- Digital Competence
- Global Competence
- Erasmus European Network

GOALS

1. Developing and improving the language skills of teachers and students in foreign languages.
2. Improving inclusion and attention to the diversity of our students as well as working towards a broader cohesion.
3. Developing and improving the digital skills of our teachers and students with the pedagogical use of ICT, together with active and innovative methodologies.
4. Consolidating and expanding the network of European centers for the internationalization of the center
5. Implementing environmental actions, sustainable development and healthy habits as our school's project.

ACTIVITIES

- Observation periods in European centers for teachers
- Training courses for teachers in different subjects Exchange of groups of students in 4th ESO and 1st Baccalaureate
- Long-term mobilities (3 months) in European centers for 1st Baccalaureate students
- Conferences and Lectures from experts in different matters related to Erasmus+ project
- Home center for European students and teachers
